ABDULHAKEEM RAJI

BACKEND DEVELOPER || AI/ML DEVELOPER

PROFESSIONAL SUMMARY

Motivated and detail-oriented backend developer with a passion for AI and machine learning. Skilled in building scalable and efficient backend systems using modern technologies. Eager to contribute to innovative projects and enhance user experiences through clean, robust code. Currently pursuing a career in software development, with a strong foundation in programming, problem-solving, and collaborative development practices. Constantly learning new tools and techniques to stay at the forefront of industry advancements.

EXPERIENCE

May 2024 - 2024

DalensAI

/ Nigeria, Lagos

Developed and deployed a computer vision model to detect various animals in real-time from images and videos, improving the company's wildlife monitoring system.

March 2024 - 2024

Algorima

/ Nigeria

Collaborated with a cross-functional team to integrate the model into existing systems, facilitating seamless use in field operations.

EDUCATION

2021 - Now

Bachelor of Science (BS)

First Technical University, Ibadan. / Nigeria, Oyo

Engaged in self-directed learning and projects to gain practical experience in software development, including backend development and machine learning, while applying engineering principles to real-world problems.

SKILLS

Programming Languages (e.g. Python, Java, C#)	Expert	Web Development (e.g. HTML, CSS)	Expert
RESTful APIs	Expert	Linux/Unix	Expert
Automation & Scripting (e.g. Bash, PowerShell)	Expert	Security & Authentication (e.g OAuth)	Expert

LANGUAGES

English

- September 2024 - November 2024

Telecommunications Intern

/ Nigeria, Minna

As an intern, I have the opportunity to work alongside seasoned professionals in the telecommunications industry, gaining hands-on experience with cutting-edge technologies and projects.

PROJECTS

- 2024 -

Xenova

Nigeria

This project aims to develop a robust and scalable backend for a social media platform using FastAPI, a modern, high-performance web framework for building APIs with Python 3.7+. The backend supports OAuth2 authentication for secure user login and authorization. It includes a range of features designed to enhance user experience and ensure smooth operation of the platform.

- 2024 -

Portfolio

Nigeria

I developed a dynamic portfolio website using FastAPI as the backend framework and HTML/CSS for the frontend. The website showcases my projects, skills, and experience as a software developer, providing an interactive and responsive interface for visitors to explore my work. The aim was to create a fast, scalable, and easy-to-maintain platform that effectively presents my professional profile.

I successfully deployed it on a Linux server:

https://Akashi.7o7.cx

- 2023 -

XenBot

Nigeria

I developed a personal chatbot application designed to assist users with everyday tasks, provide information, and engage in natural conversations. The chatbot utilizes Natural Language Processing (NLP) techniques to understand and respond to user queries in real-time. The goal of the project was to create a user-friendly, AI-powered assistant that can help streamline daily activities and provide quick access to information.
